Summary:

Graduated in English as a Second Language. Currently, I am a student of "Dev Front End" at Oracle One and Alura Latam with experience in HTML, CSS3 and JavaScript training as a junior front-end developer. Outstanding both in the school and university stages for good academic performance. I also have a broad sense of responsibility and focus on results, proactive, good at teamwork.

Technical Skills:

Programming Languages: HTML, CSS3 and Java Script.

Methodologies: Scrum

Languages: Spanish, English

Computer programs: Excel, PowerPoint, Word, Outlook.

Professional Experience:

Junior Front-end Developer

07/12/2022 - 23/02/2023

- Expertise in HTML, CSS3 and JavaScript with the ability to create user-friendly and visually appealing websites.
- Abilities to solve problems and work independently or as part of a team to find creative solutions to complex challenges.
- Passionate about creating compelling user experiences and committed to being at the forefront of the latest front-end trends and best practices.

Data analysis/Creation of projects/Design of mini-web pages - Budget analyst

05/2019 - 04/2021

- During my student stage, I gained experience in different areas such as; analyzing data from entities, creating budgets, planning and carrying out our own business, creating strategies so that our business had an attractive approach in the market. Also creating mini-web page designs, and conflict resolution simulations.
